Table 1 shows how these options have performed over time and allows you to compare them with an appropriate benchmark for the same time periods. Information about an option’s principal risks is available on the Web site[s].

The cumulative effect of fees and expenses can substantially reduce the growth of your retirement savings. Visit the Department of Labor's Web site for an example showing the long-term effect of fees and expenses at http://www.dol.gov/ebsa/publications/401k_employee.html. Fees and expenses are only one of many factors to consider when you decide to invest in an option. You may also want to think about whether an investment in a particular option, along with your other investments, will help you achieve your financial goals.

Part III. Annuity Information

Table 4 focuses on the annuity options under the plan. Annuities are insurance contracts that allow you to receive a guaranteed stream of payments at regular intervals, usually beginning when you retire and lasting for your entire life. Annuities are issued by insurance companies. Guarantees of an insurance company are subject to its long-term financial strength and claims-paying ability.

| Table 4—Annuity Options | | | |
|--|--|--|---|
| Name | Objectives / Goals | Pricing Factors | Restrictions / Fees |
| Lifetime Income Option www. website address | To provide a guaranteed stream of income for your life, based on shares you acquire while you work. At age 65, you will receive monthly payments of \$10 for each share you own, for your life. For example, if you own 30 shares at age 65, you will receive \$300 per month over | The cost of each share depends on your age and interest rates when you buy it. Ordinarily the closer you are to retirement, the more it will cost you to buy a share. The cost includes a guaranteed death benefit payable to a spouse or | Payment amounts are based on your life expectancy only and would be reduced if you choose a spousal joint and survivor benefit. You will pay a 25% surrender charge for any amount you withdraw before annuity payments begin. |

| | your life. | beneficiary if you die before payments begin. The death benefit is the total amount of your contributions, less any withdrawals. | If your income payments are less than \$50 per month, the option's issuer may combine payments and pay you less frequently, or return to you the larger of your net contributions or the cash-out value of your income shares. |
| Generations 2020 Variable Annuity Option www. website address | To provide a guaranteed stream of income for your life, or some other period of time, based on your account balance in the Generations 2020 Lifecycle Fund. This option is available through a variable annuity contract that your plan has with ABC Insurance Company. | You have the right to elect fixed annuity payments in the form of a life annuity, a joint and survivor annuity, or a life annuity with a term certain, but the payment amounts will vary based on the benefit you choose. The cost of this right is included in the Total Annual Operating Expenses of the Generations 2020 Lifecycle Fund, listed in Table 3 above. The cost also includes a guaranteed death benefit payable to a spouse or beneficiary if you die before payments begin. The death benefit is the greater of your account balance or contributions, less any withdrawals. | Maximum surrender charge of 8% of account balance. Maximum transfer fee of \$30 for each transfer over 12 in a year. Annual service charge of \$50 for account balances below \$100,000. |
